

The background image shows a rustic wedding reception. In the foreground, a wooden table is set with a green fabric runner, eucalyptus leaves, and several lit candles in glass holders and wooden lanterns. In the background, more tables and chairs are visible, along with a neon sign that reads "Dusty Brides".

The Radiance Range

Trio of vases with LED pillar candles -£15

Trio of vases with floating candles - £18

**Trio of vases with LED pillar candles & preserved foliage (as pictured)
- £20**

Trio of vases with floating candles & preserved foliage - £23

Add a pair of tapered LED candles with holder (black or gold) to any set up for £3

Note: A growing number of venues require flameless centrepieces which is why I opt to use LED candles. I use high quality flickering candles in white with a flat top for a modern look. For venues which allow flames, I offer floating candles but I do not offer centrepieces using real pillar candles.

The above design is perfect for long tables, alternatively cluster them in the middle for a round table
